## 会议背景 | Background

当前，全球新冠疫情呈现加速扩散蔓延态势，全球多地陆续出现防疫物资供应紧缺的情况。中国作为防疫物资生产大国，在做好自身疫情防控的基础上，积极有序开展各类重点防疫物资生产与出口，为维护全球公共卫生安全作出了重要贡献。中国防疫物资生产大幅度提升，防疫物资质量不断提升，随着国内疫情逐步稳定，国内对于医疗防疫物资的需求量逐渐饱和。然而根据中国海关数据统计，全国出口防疫物资呈现爆发式增长态势。但在实际贸易中，由于中国很多企业不具备出口贸易资质以及中外在质量标准、认证和使用习惯等多方面存在差异等问题，海外“订单饥渴”，国内出海困难、产品滞销成为中国防疫物资市场现状。

针对以上现状，由中国出入境检验检疫协会主办，上海高登商业展览有限公司承办的“2020国际防疫物资研讨会”将于2020年08月18日在上海国际防疫物资展览会期间隆重召开。论坛将邀请国家市场监督管理总局，国家药品监督管理局，海关总署等相关行政主管部门、各国使领馆及相关组织、防疫物资产业链上下游企业等共同参与，围绕现阶段防疫物资市场、监管、标准、认证、检验检测及出口法律法规等热点议题展开广泛而深入的交流，从而帮助企业快速高效地完成合规工作，顺利出口，全面打开国内外市场。

At present, the global COVID-19 situation is showing an accelerated spread and spreading situation, and the supply of epidemic prevention materials is in short supply in many parts of the world. As a major producer of epidemic prevention materials, China has actively and orderly carried out the production and export of various key epidemic prevention materials on the basis of its own epidemic prevention and control, and has made important contributions to maintaining global public health security. The production of anti-epidemic materials in China has greatly increased, and the quality of anti-epidemic materials has been continuously improved. As the domestic epidemic situation gradually stabilizes, the domestic demand for medical anti-epidemic materials has gradually saturated. However, according to statistics from China Customs, the export of anti-epidemic materials nationwide has shown an explosive growth. However, in actual trade, because many Chinese enterprises do not have export trade qualifications and there are differences in quality standards, certification and usage habits between China and foreign countries, overseas "orders are hungry", domestic difficulties in going to sea, and slow sales of products have become China's national defense epidemic materials market situation.

In response to the above situation, the "International Epidemic Prevention Materials Symposium 2020" hosted by China Entry-Exit Inspection & Quarantine Association and Organized by Shanghai Golden Commercial Exhibition Co., Ltd. will be held in Shanghai on August 18, 2020 during the Shanghai International Epidemic Prevention Materials Exhibition. The Symposium will invite the State Administration of Market Supervision and Administration, the State Administration of Drug Administration, the General Administration of Customs and other relevant administrative departments, embassies and consulates and related organizations of various countries, and upstream and downstream enterprises of the epidemic prevention asset industry chain to participate in the round. Extensive and in-depth exchanges on hot topics such as supervision, standards, certification, inspection and testing, and export laws and regulations have helped companies quickly and efficiently complete compliance work, export smoothly, and fully open domestic and foreign markets.
